JOURNAL OF PERIODONTOLOGY

Subject index to Volume 62, 1991 (Numbers 1 through 12)

A

ACID ETCHING, DENTAL
Treatment of periodontal furcation defects. Mandibular Class III defects. Gantes BG, et al. 361
ACQUIRED IMMUNODEFICIENCY SYNDROME
Periodontal disease in heterosexuals with acquired immunodeficiency syndrome. Klein RS, et al. 535
Periodontal status of HIV-seropositive and AIDS patients. Friedman RB, et al. 623
ACTINOBACILLUS ACTINOMYCETEMCOMITANS
The gingival immune response to *Actinobacillus actinomycetemcomitans* in juvenile periodontitis. Hall ER, et al. 792
ACTINOBACILLUS ACTINOMYCETEMCOMITANS/analysis
Development of a rapid qualitative assay for determining elevated antibody levels to periodontopathic organisms. Mealy BL, et al. 300
IgG antibody response of localized juvenile periodontitis patients to the 29 kilodalton outer membrane protein of *Actinobacillus actinomycetemcomitans*. Wilson ME, 211
Isolation and purification of bacteriocin from *Prevotella intermedia (Bacteroides intermedius)*. Takada K, et al. 439
A microbiological comparison of young adults based on relative amounts of subgingival calculus. Brown CM, et al. 591
Microflora and bacterial DNA restriction enzyme analysis in young adults with periodontitis. van Steenbergen TJM, et al. 235
ACTINOBACILLUS ACTINOMYCETEMCOMITANS/occurrence
Distribution of *Actinobacillus actinomycetemcomitans* and *Porphyromonas gingivalis* by subject age. Savitt ED, et al. 490
Incidence of periodontitis recurrence in treated patients with and without cultivable *Actinobacillus actinomycetemcomitans, Prevotella intermedia*, and *Porphyromonas gingivalis*: A prospective study. Listgarten MA, et al. 377
Intrafamilial transmission of *Actinobacillus actinomycetemcomitans*. Alaluusua S, et al. 207
ADOLESCENCE
Destructive forms of periodontal disease in adolescents. A 3-year longitudinal study. Albandar JM, et al. 370
Early onset periodontitis in the United States of America. Löe H, et al. 608
AGE FACTORS
Distribution of *Actinobacillus actinomycetemcomitans* and *Porphyromonas gingivalis* by subject age. Savitt ED, et al. 490
AIDS: SEE ACQUIRED IMMUNODEFICIENCY SYNDROME
ALIZARIN COMPLEXION
Longitudinal observation of cementum regeneration through multiple fluorescent labeling. Ogura N, et al. 284
ALVEOLAR PROCESS
Alveolar bone loss in two children with short-bowel syndrome receiving total parenteral nutrition. Wright RB, et al. 272
The effects of erythrosine on alveolar bone and gingival connective tissue in dogs. Rapley JW, et al. 132
Videodensitometrical study of the alveolar bone crest in periodontal disease. Landini G 528
AMERICAN ACADEMY OF PERIODONTOLOGY
Annual Meeting Abstracts, 1990 83
Annual Meeting Program Outline 408
Annual Meeting Research Forum Abstracts, 1991 799
1991 AAP Implant Conference 586
Orban Competition Abstracts 718
President 1
Presidential address. Maynard JG, Jr. 164
AMOXICILLIN/therapeutic use
Antibiotic prophylaxis for medical-risk patients. Pallasch TJ, et al. 227
AMPICILLIN/therapeutic use
Antibiotic prophylaxis for medical-risk patients. Pallasch TJ, et al. 227
ANESTHESIA, LOCAL
Episodic factitious gingival injury secondary to topical anesthesia. A case report. Raab FJ, et al. 402
ANGIOEDEMA/etiology
Angioedema as a complication in periodontal surgery: report of a case. Peacock ME, et al. 643
ANGIOTENSION-CONVERTING ENZYME/adverse effects
Angioedema as a complication in periodontal surgery: report of a case. Peacock ME, et al. 643
ANTIBIOTIC PROPHYLAXIS
Antibiotic prophylaxis for medical-risk patients. Pallasch TJ, et al. 227
ANTIFORMIN
Mechanical and chemical root preparation in vitro: efficiency of plaque and calculus removal. Eschler B, et al. 755

B

BACTERIAL ENDOCARDITIS/etiology
Bacteremia following subgingival irrigation and scaling and root planing. Lofthus JE, et al. 602
BACTERIAL ENDOCARDITIS/prevention

Annual Meeting Program Outline 408
Annual Meeting Research Forum Abstracts, 1991 799
1991 AAP Implant Conference 586
Orban Competition Abstracts 718
President 1
Presidential address. Maynard JG, Jr. 164
AMOXICILLIN/therapeutic use
Antibiotic prophylaxis for medical-risk patients. Pallasch TJ, et al. 227
AMPICILLIN/therapeutic use
Antibiotic prophylaxis for medical-risk patients. Pallasch TJ, et al. 227
ANESTHESIA, LOCAL
Episodic factitious gingival injury secondary to topical anesthesia. A case report. Raab FJ, et al. 402
ANGIOEDEMA/etiology
Angioedema as a complication in periodontal surgery: report of a case. Peacock ME, et al. 643
ANGIOTENSION-CONVERTING ENZYME/adverse effects
Angioedema as a complication in periodontal surgery: report of a case. Peacock ME, et al. 643
ANTIBIOTIC PROPHYLAXIS
Antibiotic prophylaxis for medical-risk patients. Pallasch TJ, et al. 227
ANTIFORMIN
Mechanical and chemical root preparation in vitro: efficiency of plaque and calculus removal. Eschler B, et al. 755

B

BACTERIAL ENDOCARDITIS/etiology
Bacteremia following subgingival irrigation and scaling and root planing. Lofthus JE, et al. 602
BACTERIAL ENDOCARDITIS/prevention

Bacteremia following subgingival irrigation and scaling and root planing. JE Lofthus, et al. 602
BACTERIAL SAMPLING/methods
Bacterial sampling by absorbent paper points. An in vitro study. Baker PJ, et al. 142
BACTERIOCIN
Isolation and purification of bacteriocin from *Prevotella intermedia (Bacteroides intermedius)*. Takada K, et al. 439
BACTEROIDES, BLACK PIGMENTED
A microbiological comparison of young adults based on relative amounts of subgingival calculus. Brown CM, et al. 591
BIOCOMPATIBLE MATERIALS
Titanium endosseous implant-soft tissue interface: A literature review. Donley TG, et al. 153
BLOOD CELLS
The electron microscopic immunolocalization of a copper-zinc superoxide dismutase in association with collagen fibers of periodontal soft tissue. Jacoby BH, et al. 413
BONE AND BONES
In vitro chemotactic response of osteoblast-like osteosarcoma cells to a partially purified protein extract of demineralized bone matrix. Padley RA, et al. 15
Doxycycline-tricalcium phosphate composite graft facilitates osseous healing in advanced periodontal furcation defects. Pepelassi EM, et al. 106
BONE EXOSTOSIS
Bony exostosis as a sequela to free gingival grafting: Two case reports. Pack ARC, et al. 269
Erratum:
BONE LOSS
Alveolar bone loss in two children with short-bowel syndrome receiving total parenteral nutrition. Wright RB, et al. 272
Destructive forms of periodontal disease in adolescents. A 3-year longitudinal study. Albandar JM, et al. 370
BONE LOSS/diagnosis
What alveolar crest level on a bite-wing radiograph represents bone loss? Hausmann E, et al. 570
BONE LOSS/etiology
Cigarette smoking and periodontal bone loss. Bergström J, et al. 242
Erratum
Microbiologic characterization of ligature-induced peri-implantitis in the microswine model. Hickey JS, et al. 548
BONE LOSS/radiography
What alveolar crest level on a bite-wing radiograph represents bone loss? Hausmann E, et al. 570
BONE REGENERATION
Clinical evaluation of the use of decalcified freeze-dried bone allograft with guided tissue regeneration in the treatment of molar furcation invasions. Anderegg CR, et al. 264
Effects of the platelet-derived growth factor/insulin-like growth factor-1 combination on bone regeneration around titanium dental implants. Results of a pilot study in beagle dogs. Lynch SE, et al. 710
Guided tissue regeneration for implants placed in extraction sockets: A study in dogs. Becker W, et al. 703
Histologic comparison of regeneration in human intrabony defects when osteogenesis is combined with demineralized freeze-dried bone allograft and with purified bovine collagen. Bowers G. et al. 690
Histologic evaluation of combining tetracycline and allogeneic freeze-dried bone on bone regeneration in experimental defects in baboons. Drury GI, et al. —
Periodontal repair in dogs: Healing in experimentally created chronic periodontal defects. Wikesjo UME, et al. 258
The use of autogenous periosteal grafts as barriers for the treatment of Class II furcation involvements in lower molars. Lekovic V, et al. 775
BONE RESORPTION
Videodensitometrical study of the alveolar bone crest in periodontal disease. Landini G 528

C

CALCEIN
Longitudinal observation of cementum regeneration through multiple fluorescent labeling. Ogura N, et al. 284
CALCIUM SULFATE/therapeutic use
Doxycycline-tricalcium phosphate composite graft facilitates osseous healing in advanced periodontal furcation defects. Pepelassi EM, et al. 106
CAPNOCYTOPHAGA SPUTIGENA
Isolation and purification of bacteriocin from *Prevotella intermedia (Bacteroides intermedius)*. Takada, K, et al 439
CARCINOMA, ORAL/diagnosis
Squamous cell carcinoma of the gingiva presenting as an endoperiodontic lesion. Heller AN, et al. 573
CELL CULTURE
Binding, uptake, and release of nicotine by human gingival fibroblasts. Hanes PJ, et al. 147
CELLS
Human periodontal cells initiate mineral-like nodules in vitro. Arceo N, et al. 499
CEMENTUM REGENERATION
Clinical evaluation of the use of decalcified freeze-dried bone allograft with guided tissue regeneration in the treatment of molar furcation invasions. Anderegg CR, et al. 264
Longitudinal observation of cementum regeneration through multiple fluorescent labeling. Ogura N, et al. 284
CETYLPYRIDINIUM CHLORIDE
The effects of a cetylpyridinium chloride prebrushing rinse as an adjunct to oral hygiene and gingival health. Moran J, et al. 562
CHEMOTAXIS
In vitro chemotactic response of osteoblast-like osteosarcoma cells to a partially purified protein extract of demineralized bone matrix. Padley RA, et al. 15
CHLORHEXIDINE/therapeutic use
Reduction of salivary bacteria by pre-procedural rinses with chlorhexidine 0.12%. Veksler AE, et al. 649
CHONDROSARCOMA

Metastatic chondrosarcoma of the gingiva mimicking a reactive exophytic lesion: A case report. Taicher S, et al. 223
Periodontal healing following guided tissue regeneration with citric acid and fibronectin application. Caffesse RG, et al. 21
Periodontal repair in dogs: Effect of root surface treatment with stannous fluoride or citric acid on root resorption. Wikesjö UME, et al 180
Treatment of periodontal furcation defects. Mandibular Class III defects. Gantes BG, et al. 361
CHLORHEXIDINE/therapeutic use
Bacteremia following subgingival irrigation and scaling and root planing. Lofthus JE, et al. 602
The effect of chlorhexidine treatment of root surfaces on the attachment of human gingival fibroblasts in vitro. Alleyn CD, et al. 434
The use of sustained release delivery of chlorhexidine for the maintenance of periodontal pockets: 2-year clinical trial. Stabholz A, et al. 429
CITRIC ACID
Early healing events at the dentin-connective tissue interface. Light and transmission electron microscopy observations. Wikesjö UME, et al. 5
Mechanical and chemical root preparation in vitro: Efficiency of plaque and calculus removal. Eschler B, et al. 757
CLINDAMYCIN/therapeutic use
Antibiotic prophylaxis for medical-risk patients. Pallasch TJ, et al. 227
COLLAGEN/therapeutic use
Heparan sulfate and fibronectin improve the capacity of collagen barriers to prevent apical migration of the junctional epithelium. Pitaru S, et al. 598
Histologic comparison of regeneration in human intrabony defects when osteogenesis is combined with demineralized freeze-dried bone allograft and with purified bovine collagen. Bowers G, et al. 690
COLLAGENASES
Enhanced repair and regeneration of periodontal lesions in tetracycline-treated patients. Case reports. Moskow BS, et al. 341
COMPUTER-ASSISTED DIAGNOSIS
Computerized densitometric analysis of interproximal bone levels in a controlled clinical study into the treatment of periodontal bone defects with ceramic hydroxyapatite implant material. Galgut PN, et al. 44
The relationship between probing attachment loss and computerized radiographic analysis in monitoring progression of periodontitis. Deas DE, et al. 135
CONNECTIVE TISSUE
The effect of chlorhexidine treatment of root surfaces on the attachment of human gingival fibroblasts in vitro. Alleyn CD, et al. 434
The effects of erythrosine on alveolar bone and gingival connective tissue in dogs. Rapley JW, et al. 132
Human periodontal cells initiate mineral-like nodules in vitro. Arceo N, et al. 499
Titanium endosseous implant-soft tissue interface: A literature review. Donley TG, et al. 153
The use of autogenous periosteal grafts as barriers for the treatment of Class II furcation involvements in lower molars. Lekovic V, et al. 775
CONNECTIVE TISSUE ATTACHMENT
Clinical evaluation of guided tissue regeneration in the treatment of maxillary Class II molar furcation invasions. Metzler DG, et al. 353
Early healing events at the dentin-connective tissue interface. Light and transmission electron microscopy observations. Wikesjö UME, et al. 5

D

DENTAL CALCULUS/prevention and control
Mechanical and chemical root preparation in vitro: Efficiency of plaque and calculus removal. Eschler B, et al. 755
The penetration of lavage solution into the periodontal pocket during ultrasonic instrumentation. Nosal G, et al. 554
DENTAL CALCULUS INDEX
Errors in measuring parameters associated with periodontal health and disease. Kingman A, et al. 477
DENTAL IMPLANTATION
Clinical comparison of hydroxyapatite-coated titanium dental implants placed in fresh extraction sockets and healed sites. Yukna RA 468
DENTAL IMPLANTS
Clinical comparison of hydroxyapatite-coated titanium dental implants placed in fresh extraction sockets and healed sites. Yukna RA 468
Effects of the platelet-derived growth factor/insulin-like growth factor-1 combination on bone regeneration around titanium dental implants. Results of a pilot study in beagle dogs. Lynch SE, et al. 710
Guided tissue regeneration for implants placed in extraction sockets: A study in dogs. Becker W, et al. 703
1991 AAP Implant Conference. Machtei EE 586
DENTAL INSTRUMENTS
The penetration of lavage solution into the periodontal pocket during ultrasonic instrumentation. Nosal G, et al. 554
Periodontal implications of furcation entrance dimensions in Chinese first permanent molars. Chiu BM, et al. 308
DENTAL PLAQUE/adverse effects
Discriminating power of five plaque indices. Quirynen M, et al. 100
DENTAL PLAQUE/analysis
Discriminating power of five plaque indices. Quirynen M, et al. 100
DENTAL PLAQUE/epidemiology
The influence of gingival inflammation, tooth type, and timing on the rate of plaque formation, Quirynen M, et al. 219
DENTAL PLAQUE/microbiology
A microbiological comparison of young adults based on relative amounts of subgingival calculus. Brown CM, et al. 591
Microbiological study of HIV-related periodontitis. Rams TE, et al. 75

A randomized, placebo-controlled trial of doxycycline: Effect on the microflora of recurrent periodontitis lesions in high risk patients. Kulkarni GV, et al. 197
DENTAL PLAQUE/prevention and control
The effects of a cetylpyridinium chloride prebrushing rinse as an adjunct to oral hygiene and gingival health. Moran J, et al. 562
The influence of gingival inflammatiion, tooth type, and timing on the rate of plaque formation, Quirynen M, et al. 219
Mechanical and chemical root preparation in vitro: Efficiency of plaque and calculus removal. Eschler B, et al. 755
The penetration of lavage solution into the periodontal pocket during ultrasonic instrumentation. Nosal G, et al. 554
DENTAL PLAQUE INDEX
Discriminating power of five plaque indices. Quirynen M , et al. 100
Errors in measuring parameters associated with periodontal health and disease. Kingman A, et al. 477
Manifestations of insulin-dependent diabetes mellitus in the periodontium of young Brazilian patients. Novaes AB Jr, et al. 116
DENTIFRICES
Clinical and microbiological effects of a sanguinaria-containing mouthrinse and dentifrice with and without fluoride during 6 months of use. Kopczyk RA, et al. 617
DENTIN
Early healing events at the dentin-connective tissue interface. Light and transmission electron microscopy observations. Wikesjö UME, et al. 5
DENTIN/anatomy and histology
Dentinal tubule occlusion and root sensitivity. Kerns DG, et al. 421
DENTIN, SENSITIVE
Dentinal tubule occlusion and root sensitivity. Kerns DG, et al. 421
DENTIN, SENSITIVE/anatomy
An in vitro study of dentin sensitivity: The relation of dentin sensitivity and the patency of dentin tubules. Cuenin MF, et al. 668
DENTIN, SENSITIVE/physiology
An in vitro study of dentin sensitivity: The relation of dentin sensitivity and the patency of dentin tubules. Cuenin MF, et al. 668
DENTIN, SENSITIVE/therapy
An in vitro study of dentin sensitivity: The relation of dentin sensitivity and the patency of dentin tubules. Cuenin MF, et al. 668
DIABETES, INSULIN-DEPENDENT
Defective neutrophil function in an insulin-dependent diabetes mellitus patient. A case report. Cutler CW, et al. 394
Manifestations of insulin-dependent diabetes mellitus in the periodontium of young Brazilian patients. Novaes AB Jr, et al. 116
DIABETES MELLITUS
Diabetes and periodontal disease (Guest Editorial). Gottsegen R 161
Periodontal disease in non-insulin-dependent diabetes mellitus. Emrich LJ, et al. 123
DIAGNOSIS, ORAL/methods
Determining the value of a periodontal diagnostic test. Douglass CW, et al. 721
DOUBLE-BLIND STUDIES
Effects of metronidazole on periodontal treatment needs. Loesche WJ, et al. 247
A randomized, placebo-controlled trial of doxycycline: Effect on the microflora of recurrent periodontitis lesions in high risk patients. Kulkarni GV, et al. 197
DOXYCYCLINE/therapeutic use
Doxycycline-tricalcium phosphate composite graft facilitates osseous healing in advanced periodontal furcation defects. Pepelassi EM, et al. 106
A randomized, placebo-controlled trial of doxycycline: Effect on the microflora of recurrent periodontitis lesions in high risk patients. Kulkarni GV, et al. 197
Topical application of doxycycline on periodontally involved root surfaces in vitro: Comparative analysis of substantivity on cementum and dentin. Demirel K, et al. 312

E

EDITORIAL
Diabetes and periodontal disease. Gottsegen R 161
EIKENELLA CORRODENS
A microbiological comparison of young adults based on relative amounts of subgingival calculus. Brown CM, et al. 591
ENDOCARDITIS, INFECTIVE
Prevention of infective endocarditis: A review of the medical and dental literature. Barco CT 510
ENDOCARDITIS, INFECTIVE SUBACUTE BACTERIAL
Antibiotic prophylaxis for medical-risk patients. Pallasch TJ, et al. 227
EPITHELIAL ATTACHMENT
Periodontal repair in dogs: Effect of root surface treatment with stannous fluoride or citric acid on root resorption. Wikesjö UME, et al 180
A randomized, placebo-controlled trial of doxycycline: Effect on the microflora of recurrent periodontitis lesions in high risk patients. Kulkarni GV, et al. 197
Risk indicator for future clinical attachment loss in adult periodontitis. Patient variables. Grbic JT, et al. 322
Titanium endosseous implant-soft tissue interface: A literature review. Donley TG, et al. 153
ERRATA 809
ERYTHROMYCIN/therapeutic use
Antibiotic prophylaxis for medical-risk patients. Pallasch TJ, et al. 227
ERYTHROSINE/therapeutic use
The effects of erythrosine on alveolar bone and gingival connective tissue in dogs. Rapley JW, et al. 132

F

FACTITIOUS INJURIES
Episodic factitious gingival injury secondary to topical anesthesia. A case report. Raab FJ, et al. 402

FIBER OPTICS
Clinical effects of closed root planing compared to papilla reflection and fiber optic augmentation. Reinhardt RA, et al. 317
FIBRIN
Early healing events at the dentin-connective tissue interface. Light and transmission electron microscopy observations. Wikesjö UME, et al. 5
FIBROBLASTS
Binding, uptake, and release of nicotine by human gingival fibroblasts. Hanes PJ, et al. 147
The effect of chlorhexidine treatment of root surfaces on the attachment of human gingival fibroblasts in vitro. Alleyn CD, et al. 434
Effect of zinc upon cell attachment and proliferation on periodontally-diseased root surfaces. Stookey KR, et al. 445
Human periodontal cells initiate mineral-like nodules in vitro. Arceo N, et al. 499
FIBRONECTIN
Heparan sulfate and fibronectin improve the capacity of collagen barriers to prevent apical migration of the junctional epithelium. Pitaru S, et al. 598
Periodontal healing following guided tissue regeneration with citric acid and fibronectin application. Caffesse RG, et al. 21
FLUORIDES/therapeutic use
Clinical and microbiological effects of a sanguinaria-containing mouthrinse and dentifrice with and without fluoride during 6 months of use. Kopczyk RA, et al. 617
FOLLOW-UP STUDIES
Clinical and microbiological patterns of adults with periodontitis. Kornman KS, et al. 634
Prognosis versus actual outcome: A long-term survey of 100 treated periodontal patients under maintenance care. McGuire MK 51
Resolution of early lesions of juvenile periodontitis with tetracycline therapy alone: Long-term observation of 4 cases. Novak MJ, et al. 628
FURCATION/anatomy
Periodontal implications of furcation entrance dimensions in Chinese first permanent molars. Chiu BM, et al. 308
FURCATION/therapy
Clinical evaluation of guided tissue regeneration in the treatment of maxillary Class II molar furcation invasions. Metzler DG, et al. 353
Clinical evaluation of the use of decalcified freeze-dried bone allograft with guided tissue regeneration in the treatment of molar furcation invasions. Anderegg CR, et al. 264
Doxycycline-tricalcium phosphate composite graft facilitates osseous healing in advanced periodontal furcation defects. Pepelassi EM, et al. 106
Periodontal implications of furcation entrance dimensions in Chinese first permanent molars. Chiu BM, et al. 308
Treatment of periodontal furcation defects. Mandibular Class III defects. Gantes BG, et al. 361
The use of autogenous periosteal grafts as barriers for the treatment of Class II furcation involvements in lower molars. Lekovic V, et al. 775
The use of a synthetic skin substitute as a physical barrier to enhance healing in human periodontal furcation defects: A follow-up study. Flanary DB, et al. 684
FUSOBACTERIUM NUCLEATUM
Isolation and purification of bacteriocin from *Prevotella intermedia (Bacteroides intermedius)*. Takada K, et al. 439

G

GENETICS
Periodontal findings in adult twins. Michalowicz BS, et al. 293
GENTAMICIN/therapeutic use
Antibiotic prophylaxis for medical-risk patients. Pallasch TJ, et al. 227
GINGIVA/anatomy
The electron microscopic immunolocalization of a copper-zinc superoxide dismutase in association with collagen fibers of periodontal soft tissue. Jacoby BH, et al. 413
The histological investigation of gingiva from patients with chronic renal failure, renal transplants, and with periodontitis: A light and electron microscopic study. Yamalik N, et al. —
A randomized, placebo-controlled trial of doxycycline: Effect on the microflora of recurrent periodontitis lesions in high risk patients. Kulkarni GV, et al. 197
GINGIVA/histology
The histological investigation of gingiva from patients with chronic renal failure, renal transplants, and with periodontitis: A light and electron microscopic study. Yamalik N, et al. 737
Periodontal repair in dogs: Effect of root surface treatment with stannous fluoride or citric acid on root resorption. Wikesjö UME, et al. 180
A randomized, placebo-controlled trial of doxycycline: Effect on the microflora of recurrent periodontitis lesions in high risk patients. Kulkarni GV, et al. 197
GINGIVA/physiology
Lipid composition and biosynthesis in the gingiva of the domestic cat. Rabinowitz JL, et al. 495
GINGIVA/surgery
Bony exostosis as a sequela to free gingival grafting: Two case reports. Pack ARC, et al. 269
Erratum: 809
GINGIVAL DISEASES/etiology
Discriminating power of five plaque indices. Quirynen M, et al. 100
Episodic factitious gingival injury secondary to topical anesthesia. A case report. Raab FJ, et al. 402
GINGIVAL HYPERPLASIA
Nifedipine-induced gingival hyperplasia: A clinical and in vitro study. Nishikawa S, et al. 30
GINGIVAL INDEX
Errors in measuring parameters associated with periodontal health and disease. Kingman A, et al. 477

GINGIVAL NEOPLASMS
Metastatic chondrosarcoma of the gingiva mimicking a reactive exophytic lesion: A case report. Taicher S, et al. 223
Odontogenic epithelial hamartoma of the gingiva: A case report. Kitano M, et al. 452
GINGIVAL NEOPLASMS/diagnosis
Squamous cell carcinoma of the gingiva presenting as an endoperiodontic lesion. Heller AN, et al. 573
GINGIVAL RECESSION/microbiology
Microflora and bacterial DNA restriction enzyme analysis in young adults with periodontitis. van Steenbergen TJM, et al. 235
GINGIVITIS
CD4 to CD8 ration and in vitro lymphoproliferative responses during experimental gingivitis in pregnancy and post-partum. Raber-Durlacher JE, et al. 663
GINGIVITIS/drug therapy
The effect of chlorhexidine treatment of root surfaces on the attachment of human gingival fibroblasts in vitro. Alleyn CD, et al. 434
The effects of a cetylpyridinium chloride prebrushing rinse as an adjunct to oral hygiene and gingival health. Moran J, et al. 562
GINGIVITIS/epidemiology
Periodontal disease in heterosexuals with acquired immunodeficiency syndrome. Klein RS, et al. 535
GINGIVITIS/etiology
Clinical documentation and occurrence of putative periodontopathic bacteria in human immunodeficiency virus-associated periodontal disease. Gornitsky M, et al. 576
The influence of gingival inflammation, tooth type, and timing on the rate of plaque formation, Quirynen M, et al. 219
Periodontal findings in adult twins. Michalowicz BS, et al. 293
GINGIVITIS/physiology
Lipid composition and biosynthesis in the gingiva of the domestic cat. Rabinowitz JL, et al. 495
GINGIVITIS/therapy
Changes in hemoglobin concentration and oxygen saturation in human gingiva with decreasing inflammation. Hanioka T, et al. 366
GINGIVITIS, PLASMA CELL
Plasma cell gingivitis of unusual origin. A case report. Serio FG, et al. 390
GRAFTS
Doxycycline-tricalcium phosphate composite graft facilitates osseous healing in advanced periodontal furcation defects. Pepelassi EM, et al. 106
The use of autogenous periosteal grafts as barriers for the treatment of Class II furcation involvements in lower molars. Lekovic V, et al. 775
GRAFTS/freeze-dried bone
Histologic comparison of regeneration in human intrabony defects when osteogenesis is combined with demineralized freeze-dried bone allograft and with purified bovine collagen. Bowers G, et al. 690
Histologic evaluation of combining tetracycline and allogeneic freeze-dried bone on bone regeneration in experimental defects in baboons. Drury GI, et al. 652
GRAFTS/surgery
Bony exostosis as a sequela to free gingival grafting: Two case reports. Pack ARC, et al. 269
Erratum: 811
GROWTH FACTORS
Effects of the platelet-derived growth factor/insulin-like growth factor-1 combination on bone regeneration around titanium dental implants. Results of a pilot study in beagle dogs. Lynch SE, et al. 710
The effects of short-term application of a combination of platelet-derived and insulin-like growth factors on periodontal wound healing. Lynch SE, et al. 458
GUIDED TISSUE REGENERATION
Clinical evaluation of guided tissue regeneration in the treatment of maxillary Class II molar furcation invasions. Metzler DG, et al. 353
Clinical evaluation of the use of decalcified freeze-dried bone allograft with guided tissue regeneration in the treatment of molar furcation invasions. Anderegg CR, et al. 264
A critical review of the biologic rationale for guided tissue regeneration. Minaba M 171
Guided tissue regeneration for implants placed in extraction sockets: A study in dogs. Becker W, et al. 703
Heparan sulfate and fibronectin improve the capacity of collagen barriers to prevent apical migration of the junctional epithelium. Pitaru S, et al. 598
Monoclonal antibodies to periodontal ligament cells. DuBois WT, et al. 190
Periodontal healing following guided tissue regeneration with citric acid and fibronectin application. Caffesse RG, et al. 21
Treatment of periodontal defects with an absorbable membrane (Polyglactin 910) with and without osseous grafting. Gager AH, et al 276
The use of a synthetic skin substitute as a physical barrier to enhance healing in human periodontal furcation defects: A follow-up study. Flanary DB, et al. 684

H

HALITOSIS
Halitosis measurement by an industrial sulphide monitor. Rosenberg M, et al. 487
HAMARTOMA, ODONTOGENIC
Odontogenic epithelial hamartoma of the gingiva: A case report. Kitano M, et al. 452
HEMOGLOBIN
Changes in hemoglobin concentration and oxygen saturation in human gingiva with decreasing inflammation. Hanioka T, et al. 366
HEPARAN
Heparan sulfate and fibronectin improve the capacity of collagen barriers to prevent apical migration of the junctional epithelium. Pitaru S, et al. 598
HEPARIN
Early healing events at the dentin-connective tissue in-

terface. Light and transmission electron microscopy observations. Wikesjö, UME, et al. 5

HIV
Clinical documentation and occurrence of putative periodontopathic bacteria in human immunodeficiency virus-associated periodontal disease. Gornitsky M, et al. 576
Microbiological study of HIV-related periodontitis. Rams TE, et al. 75
Periodontal disease in heterosexuals with acquired immunodeficiency syndrome. Klein RS, et al. 535

HIV VIRUS
Periodontal status of HIV-seropositive and AIDS patients. Friedman RB, et al. 623

HYDROGEN SULPHIDE/analysis
Halitosis measurement by an industrial sulphide monitor. Rosenberg M, et al. 487

HYDROXYAPATITES
Clinical comparison of hydroxyapatite-coated titanium dental implants placed in fresh extraction sockets and healed sites. Yukna RA 468
Computerized densitometric analysis of interproximal bone levels in a controlled clinical study into the treatment of periodontal bone defects with ceramic hydroxyapatite implant material. Galgut PN, et al. 44

HYPERSENSITIVITY
Plasma cell gingivitis of unusual origin. A case report. Serio FG, et al. 390

I

IgG ANTIBODIES
Humoral immune responses to *Porphyromonas gingivalis* before and following therapy in rapidly progressive periodontitis patients. Chen HA, et al. 781
IgG antibody response of localized juvenile periodontitis patients to the 29 kilodalton outer membrane protein of *Actinobacillus actinomycetemcomitans*. Wilson ME 211

IgG ANTIBODIES/analysis
Development of a rapid qualitative assay for determining elevated antibody levels toperiodontopathic organisms. Mealy BL, et al. 300

IMMUNE RESPONSE
The gingival immune response to *Actinobacillus actinomycetemcomitans* in juvenile periodontitis. Hall ER, et al. 792
Humoral immune responses to *Porphyromonas gingivalis* before and following therapy in rapidly progressive periodontitis patients. Chen HA, et al. 781

IMMUNOSUPPRESSANTS/adverse effects
The histological investigation of gingiva from patients with chronic renal failure, renal transplants, and with periodontitis: A light and electron microscopic study. Yamalik N, et al. 737

IMPLANTS
Computerized densitometric analysis of interproximal bone levels in a controlled clinical study into the treatment of periodontal bone defects with ceramic hydroxyapatite implant material. Galgut PN, et al. 44
Titanium endosseous implant-soft tissue interface: A literature review. Donley TG, et al. 153

IMPLANTS, OSSEOINTEGRATED
The excessive loss of Branemark fixtures in type IV bone: A 5-year analysis. Jaffin RA, et al. 2
Microbiologic characterization of ligature-induced peri-implantitis in the microswine model. Hickey JS, et al. 548

IN MEMORIAM 351, 717

INTERLEUKIN-1α
Tissue levels of bone resorptive cytokines in periodontal disease. Stashenko P, et al. 504

INTERLEUKIN-1β
Localization of interleukin-1B in human periodontal tissue. Jandinski JJ, et al. 36
Tissue levels of bone resorptive cytokines in periodontal disease. Stashenko P, et al. 504

J

JOURNAL OF PERIODONTOLOGY
Ad hoc reviewers 82
Instructions to authors 90, 473

L

LABELING, FLUORESCENT
Longitudinal observation of cementum regeneration through multiple fluorescent labeling. Ogura N, et al. 284

LETTERS TO THE EDITOR 407, 646

LEUKOCYTES, POLYMORPHONUCLEAR
Defective neutrophil function in an insulin-dependent diabetes mellitus patient. A case report. Cutler CW, et al. 394

LIPIDS/metabolism
Lipid composition and biosynthesis in the gingiva of the domestic cat. Rabinowitz JL, et al. 495

LYMPHOCYTES
CD4 to CD8 ration and in vitro lymphoproliferative responses during experimental gingivitis in pregnancy and post-partum. Raber-Durlacher JE, et al. 663

M

MEETING ANNOUNCEMENTS 232, 541

MELANOMA, BENIGN
Smoker's melanosis. A case report. Brown FH, et al. 524

MEMBRANES, BARRIER
A critical review of the biologic rationale for guided tissue regeneration. Minaba M 171
Treatment of periodontal defects with an absorbable membrane (Polyglactin 910) with and without osseous grafting: Case reports. Gager AH, et al 276

METASTATIC NEOPLASMS
Metastatic chondrosarcoma of the gingiva mimicking a reactive exophytic lesion: A case report. Taicher S, et al. 223

METRONIDAZOLE/therapeutic use
Effects of metronidazole on periodontal treatment needs. Loesche WJ, et al. 247
MICROBES/transmission
Intrafamilial transmission of *Actinobacillus actinomycetemcomitans*. Alaluusua S, et al. 207
MODELS, ANIMAL
Microbiological and immunological aspects of experimental periodontal disease in rats: A review article. Klausen B 59
Periodontal repair in dogs: Healing in experimentally created chronic periodontal defects. Wikesjö UME, et al. 258
MODELS, BIOLOGICAL
The gingival immune response to *Actinobacillus actinomycetemcomitans* in juvenile periodontitis. Hall ER, et al. 792
MOLAR/anatomy
Periodontal implications of furcation entrance dimensions in Chinese first permanent molars. Chiu BM, et al. 308
MONOCLONAL ANTIBODIES
Monoclonal antibodies to periodontal ligament cells. DuBois WT, et al. 190
MOUTH MUCOSA
Metastatic chondrosarcoma of the gingiva mimicking a reactive exophytic lesion: A case report. Taicher S, et al. 223
MOUTH NEOPLASMS
Metastatic chondrosarcoma of the gingiva mimicking a reactive exophytic lesion: A case report. Taicher S, et al. 223
Smoker's melanosis. A case report. Brown FH, et al. 524
MOUTHWASHES
Clinical and microbiological effects of a sanguinaria-containing mouthrinse and dentifrice with and without fluoride during 6 months of use. Kopczyk RA, et al. 617
The effects of a cetylpyridinium chloride prebrushing rinse as an adjunct to oral hygiene and gingival health. Moran J, et al. 562
MULTICENTER STUDIES
Clinical and microbiological patterns of adults with periodontitis. Kornman KS, et al. 634
MYXOMA
Odontogenic myxoma. Report of a periodontally-located case. Gunhan O, et al. 387

N

NEUTROPHILS/therapeutic use
The neutrophil: Mechanisms of controlling periodontal bacteria. Miyasaki KT 761
NICOTINE/adverse effects
Binding, uptake, and release of nicotine by human gingival fibroblasts. Hanes PJ, et al. 147
NIFEDIPINE/adverse effects
Nifedipine-induced gingival hyperplasia: A clinical and in vitro study. Nishikawa S, et al. 30
NUTRITION, PARENTERAL
Alveolar bone loss in two children with short-bowel syndrome receiving total parenteral nutrition. Wright RB, et al. 272

O

OBITUARY
Goldman HM 589
ODONTOGENIC TUMORS
Odontogenic myxoma. Report of a periodontally-located case. Gunhan O, et al. 387
ORAL HEALTH INDEX
Periodontal disease in non-insulin-dependent diabetes mellitus. Emrich LJ, et al. 123
ORAL HEALTH SURVEYS
Early onset periodontitis in the United States of America. Löe H, et al. 608
Periodontal status of HIV-seropositive and AIDS patients. Friedman RB, et al. 623
OSSEOINTEGRATION
Clinical comparison of hydroxyapatite-coated titanium dental implants placed in fresh extraction sockets and healed sites. Yukna RA 468
Microbiologic characterization of ligature-induced periimplantitis in the microswine model. Hickey JS, et al. 548
OSTEOBLASTS
In vitro chemotactic response of osteoblast-like osteosarcoma cells to a partially purified protein extract of demineralized bone matrix. Padley RA, et al. 15
OSTEOGENESIS
Guided tissue regeneration for implants placed in extraction sockets: A study in dogs. Becker W, et al. 703
Histologic comparison of regeneration in human intrabony defects when osteogenesis is combined with demineralized freeze-dried bone allograft and with purified bovine collagen. Bowers G, et al. 690
In vitro chemotactic response of osteoblast-like osteosarcoma cells to a partially purified protein extract of demineralized bone matrix. Padley RA, et al. 15
OSTEOGENIN
Histologic comparison of regeneration in human intrabony defects when osteogenesis is combined with demineralized freeze-dried bone allograft and with purified bovine collagen. Bowers G, et al. 690
OXYGEN SATURATION
Changes in hemoglobin concentration and oxygen saturation in human gingiva with decreasing inflammation. Hanioka T, et al. 366

P

PATIENT COMPLIANCE
Compliance with supportive periodontal therapy. Mendoza AR, et al. 731
PERIODONTAL ABSCESS

A randomized, placebo-controlled trial of doxycycline: Effect on the microflora of recurrent periodontitis lesions in high risk patients. Kulkarni GV, et al. 197
Odontogenic myxoma. Report of a periodontally-located case. Gunhan O, et al. 387

PERIODONTAL ATTACHMENT
Errors in measuring parameters associated with periodontal health and disease. Kingman A, et al. 477
Human periodontal cells initiate mineral-like nodules in vitro. Arceo N, et al. 499
PERIODONTAL DISEASES
Destructive forms of periodontal disease in adolescents. A 3-year longitudinal study. Albandar JM, et al. 370
Monoclonal antibodies to periodontal ligament cells. DuBois WT, et al. 190
PERIODONTAL DISEASES/diagnosis
Determining the value of a periodontal diagnostic test. Douglass CW, et al. 721
Prognosis versus actual outcome: A long-term survey of 100 treated peridontal patients under maintenance care. McGuire MK 51
Progression of probing attachment loss in adult periodontitis. Jeffcoat MK, et al. 185
Temperature gradients in periodontal pockets. Meyerov RH, et al. 95
PERIODONTAL DISEASES/drug therapy
Effects of metronidazole on periodontal treatment needs. Loesche WJ, et al. 247
Enhanced repair and regeneration of periodontal lesions in tetracycline-treated patients. Case reports. Moskow BS, et al. 341
Topical application of doxycycline on periodontally involved root surfaces in vitro: Comparative analysis of substantivity on cementum and dentin. Demirel K, et al. 312
PERIODONTAL DISEASES/epidemiology
Manifestations of insulin-dependent diabetes mellitus in the periodontium of young Brazilian patients. Novaes AB Jr, et al. 116
Microflora and bacterial DNA restriction enzyme analysis in young adults with peridontitis. van Steenbergen TJM, et al. 235
Periodontal disease in non-insulin-dependent diabetes mellitus. Emrich LJ, et al. 123
Risk indicator for future clinical attachment loss in adult periodontitis. Patient variables. Grbic JT, et al. 322
PERIODONTAL DISEASES/etiology
Cigarette smoking and periodontal bone loss. Bergström J, et al. 242
Erratum: 809
Diabetes and periodontal disease (guest editorial). Gottsegen R 161
Manifestations of insulin-dependent diabetes mellitus in the periodontium of young Brazilian patients. Novaes AB Jr, et al. 116
Periodontal disease in non-insulin-dependent diabetes mellitus. Emrich LJ, et al. 123
Periodontal status of HIV-seropositive and AIDS patients. Friedman RB, et al. 623
PERIODONTAL DISEASES/immunology
Microbiological and immunological aspects of experimental periodontal disease in rats: A review article. Klausen B 59
PERIODONTAL DISEASES/microbiology
Bacterial sampling by absorbent paper points. An in vitro study. Baker PJ, et al. 142
Determining the value of a periodontal diagnostic test. Douglass CW, et al. 721
Microbiologic characterization of ligature-induced periimplantitis in the microswine model. Hickey JS, et al. 548
Microbiological and immunological aspects of experimental periodontal disease in rats: A review article. Klausen B 59
The neutrophil: mechanisms of controlling periodontal bacteria. Miyasaki KT 761
PERIODONTAL DISEASES/pathogenesis
Localization of interleukin-1B in human periodontal tissue. Jandinski JJ, et al. 36
Microbiological and immunological aspects of experimental periodontal disease in rats: A review article. Klausen B 59
Tissue levels of bone resorptive cytokines in periodontal disease. Stashenko P, et al. 504
PERIODONTAL DISEASES/prevention and control
The neutrophil: Mechanisms of controlling periodontal bacteria. Miyasaki KT 761
PERIODONTAL DISEASES/radiography
What alveolar crest level on a bite-wing radiograph represents bone loss? Hausmann E, et al. 570
PERIODONTAL DISEASES/surgery
The effect of chlorhexidine treatment of root surfaces on the attachment of human gingival fibroblasts in vitro. Alleyn CD, et al. 434
The effects of short-term application of a combination of platelet-derived and insulin-like growth factors on periodontal wound healing. Lynch SE, et al. 458
PERIODONTAL DISEASES/therapy
Compliance with supportive periodontal therapy. Mendoza AR, et al. 731
Computerized densitometric analysis of interproximal bone levels in a controlled clinical study into the treatment of periodontal bone defects with ceramic hydroxyapatite implant material. Galgut PN, et al. 44
Effect of zinc upon cell attachment and proliferation on periodontally-diseased root surfaces. Stookey KR, et al. 445
Periodontal repair in dogs: Healing in experimentally created chronic periodontal defects. Wikesjö, UME, et al. 258
Prognosis versus actual outcome: A long-term survey of 100 treated periodontal patients under maintenance care. McGuire MK 51
Treatment of periodontal defects with an absorbable membrane (Polyglactin 910) with and without osseous grafting: Case reports. Gager AH, et al 276
PERIODONTAL DRESSINGS
The use of a synthetic skin substitute as a physical barrier to enhance healing in human periodontal furcation defects: A follow-up study. Flanary DB, et al. 684
PERIODONTAL INDEX

Clinical documentation and occurrence of putative periodontopathic bacteria in human immunodeficiency virus-associated periodontal disease. Gornitsky M, et al. 576
Errors in measuring parameters associated with periodontal health and disease. Kingman A, et al. 477
PERIODONTAL LIGAMENT
The electron microscopic immunolocalization of a copper-zinc superoxide dismutase in association with collagen fibers of periodontal soft tissue. Jacoby BH, et al. 413
Human periodontal cells initiate mineral-like nodules in vitro. Arceo N, et al. 499
PERIODONTAL POCKETS
Temperature gradients in periodontal pockets. Meyerov RH, et al. 95
PERIODONTAL POCKETS/diagnosis
Site selection criteria for microbiological testing of periodontal microorganisms. Savitt ED, et al. 558
PERIODONTAL POCKETS/drug therapy
The penetration of lavage solution into the periodontal pocket during ultrasonic instrumentation. Nosal G, et al. 554
PERIODONTAL POCKETS/microbiology
Bacterial sampling by absorbent paper points. An in vitro study. Baker PJ, et al. 142
Prevention of infective endocarditis: A review of the medical and dental literature. Barco CT 510
Site selection criteria for microbiological testing of periodontal microorganisms. Savitt ED, et al. 558
The use of sustained release delivery of chlorhexidine for the maintenance of periodontal pockets: 2-year clinical trial. Stabholz A, et al. 429
PERIODONTAL POCKETS/therapy
Treatment of periodontal defects with an absorbable membrane (Polyglactin 910) with and without osseous grafting: Case reports. Gager AH, et al 276
The use of sustained release delivery of chlorhexidine for the maintenance of periodontal pockets: 2-year clinical trial. Stabholz A, et al. 429
PERIODONTITIS
Destructive forms of periodontal disease in adolescents. A 3-year longitudinal study. Albandar JM, et al. 370
Humoral immune responses to *Porphyromonas gingivalis* before and following therapy in rapidly progressive periodontitis patients. Chen HA, et al. 781
The use of autogenous periosteal grafts as barriers for the treatment of Class II furcation involvements in lower molars. Lekovic V, et al. 775
PERIODONTITIS/diagnosis
Clinical and microbiological patterns of adults with periodontitis. Kornman KS, et al. 634
Progression of probing attachment loss in adult periodontitis. Jeffcoat MK, et al. 185
The relationship between probing attachment loss and computerized radiographic analysis in monitoring progression of periodontitis. Deas DE, et al. 135
Site selection criteria for microbiological testing of periodontal microorganisms. Savitt ED, et al. 558
PERIODONTITIS/drug therapy
Enhanced repair and regeneration of periodontal lesions in tetracycline-treated patients. Case reports. Moskow BS, et al. 341
PERIODONTITIS/epidemiology
Periodontal disease in heterosexuals with acquired immunodeficiency syndrome. Klein RS, et al. 535
PERIODONTITIS/etiology
Clinical documentation and occurrence of putative periodontopathic bacteria in human immunodeficiency virus-associated periodontal disease. Gornitsky M, et al. 576
Defective neutrophil function in an insulin-dependent diabetes mellitus patient. A case report. Cutler CW, et al. 394
Distribution of *Actinobacillus actinomycetemcomitans* and *Porphyromonas gingivalis* by subject age. Savitt ED, et al. 490
Intrafamilial transmission of *Actinobacillus actinomycetemcomitans*. Alaluusua S, et al. 207
A microbiological comparison of young adults based on relative amounts of subgingival calculus. Brown CM, et al. 591
Periodontal findings in adult twins. Michalowicz BS, et al. 293
Recovery of *A. actinomycetemcomitans* from teeth, tongue, and saliva. Asikainen S, et al. 203
PERIODONTITIS/microbiology
Clinical and microbiological patterns of adults with periodontitis. Kornman KS, et al. 634
Defective neutrophil function in an insulin-dependent diabetes mellitus patient. A case report. Cutler CW, et al. 394
Distribution of *Actinobacillus actinomycetemcomitans* and *Porphyromonas gingivalis* by subject age. Savitt ED, et al. 490
Incidence of periodontitis recurrence in treated patients with and without cultivable *Actinobacillus actinomycetemcomitans, Prevotella intermedia*, and *Porphyromonas gingivalis*: A prospective study. Listgarten MA, et al. 377
Isolation and purification of bacteriocin from *Prevotella intermedia (Bacteroides intermedius)*. Takada K, et al. 439
Microbiological study of HIV-related periodontitis. Rams TE, et al. 75
Site selection criteria for microbiological testing of periodontal microorganisms. Savitt ED, et al. 558
Subgingival microflora of advanced periodontitis in the Dominican Republic. Slots J, et al. 543
PERIODONTITIS/radiography
The relationship between probing attachment loss and computerized radiographic analysis in monitoring progression of periodontitis. Deas DE, et al. 135
PERIODONTITIS/surgery
Sounding depth measurements: A method for evaluating various surgical techniques. Ben-Yehouda A, et al. 565
PERIODONTITIS/therapy
Clinical effects of closed root planing compared to papilla reflection and fiber optic augmentation. Reinhardt RA, et al. 317
Clinical evaluation of guided tissue regeneration in the

treatment of maxillary Class II molar furcation invasions. Metzler DG, et al. 353
Periodontal healing following guided tissue regeneration with citric acid and fibronectin application. Caffesse RG, et al. 21
The use of a synthetic skin substitute as a physical barrier to enhance healing in human periodontal furcation defects: A follow-up study. Flanary DB, et al. 684
PERIODONTITIS, JUVENILE
Destructive forms of periodontal disease in adolescents. A 3-year longitudinal study. Albandar JM, et al. 370
IgG antibody response of localized juvenile periodontitis patients to the 29 kilodalton outer membrane protein of *Actinobacillus actinomycetemcomitans*. Wilson ME 211
No female preponderance in juvenile periodontitis after correction for ascertainment bias. Hart TC, et al. 745
PERIODONTITIS, JUVENILE/epidemiology
Early onset periodontitis in the United States of America. Löe H, et al. 608
The prevalence and sex ratio of juvenile periodontitis in a young racially mixed population. Melvin WL, et al. 330
PERIODONTITIS, JUVENILE/pathogenesis
The gingival immune response to *Actinobacillus actinomycetemcomitans* in juvenile periodontitis. Hall ER, et al. 792
PERIODONTITIS, JUVENILE/therapy
Resolution of early lesions of juvenile periodontitis with tetracycline therapy alone: Long-term observation of 4 cases. Novak MJ, et al. 628
PERIODONTIUM/anatomy and histology
Monoclonal antibodies to periodontal ligament cells. DuBois WT, et al. 190
PLANING
Dentinal tubule occlusion and root sensitivity. Kerns DG, et al. 421
Mechanical and chemical root preparation in vitro: Efficiency of plaque and calculus removal. Eschler B, et al. 755
Reduction of salivary bacteria by pre-procedural rinses with chlorhexidine 0.12%. Veksler AE, et al. 649
PLANING/methods
Clinical effects of closed root planing compared to papilla reflection and fiber optic augmentation. Reinhardt RA, et al. 317
In vivo scaling and root planing forces. Zappa U, et al. 335
Root substance removal by scaling and root planing. Zappa U, et al. 750
POLISHING
Influence of polishing procedures on sonic scaling root surface roughness. Leknes KN, et al. 659
POLYGLACTIN 910
Treatment of periodontal defects with an absorbable membrane (Polyglactin 910) with and without osseous grafting: Case reports. Gaffer AH, et al 276
PORPHYROMONAS ASACCHAROLYTICA
The gingival immune response to *Actinobacillus actinomycetemcomitans* in juvenile periodontitis. Hall ER, et al. 794
PORPHYROMONAS GINGIVALIS
Development of a rapid qualitative assay for determining elevated antibody levels to periodontopathic organisms. Mealy BL, et al. 300
Humoral immune responses to *Porphyromonas gingivalis* before and following therapy in rapidly progressive periodontitis patients. Chen HA, et al. 783
Isolation and purification of bacteriocin from *Prevotella intermedia (Bacteroides intermedius)*. Takada K, et al. 439
Microflora and bacterial DNA restriction enzyme analysis in young adults with periodontitis. van Steenbergen TJM, et al. 235
PORPHYROMONAS GINGIVALIS/occurrence
Distribution of *Actinobacillus actinomycetemcomitans* and *Porphyromonas gingivalis* by subject age. Savitt ED, et al. 490
Incidence of periodontitis recurrence in treated patients with and without cultivable *Actinobacillus actinomycetemcomitans, Prevotella intermedia*, and *Porphyromonas gingivalis*: A prospective study. Listgarten MA, et al. 377
PREGNANCY
CD4 to CD8 ration and in vitro lymphoproliferative responses during experimental gingivitis in pregnancy and post-partum. Raber-Durlacher JE, et al. 663
PREVOTELLA INTERMEDIA (BACTEROIDES INTERMEDIUS)
CD4 to CD8 ration and in vitro lymphoproliferative responses during experimental gingivitis in pregnancy and post-partum. Raber-Durlacher JE, et al. 663
Development of a rapid qualitative assay for determining elevated antibody levels to periodontopathic organisms. Mealy BL, et al. 300
Incidence of periodontitis recurrence in treated patients with and without cultivable *Actinobacillus actinomycetemcomitans, Prevotella intermedia*, and *Porphyromonas gingivalis*: A prospective study. Listgarten MA, et al. 377
Isolation and purification of bacteriocin from *Prevotella intermedia (Bacteroides intermedius)*. Takada K, et al. 439
Microflora and bacterial DNA restriction enzyme analysis in young adults with periodontitis. van Steenbergen TJM, et al. 235
PROGNOSIS
Prognosis versus actual outcome: A long-term survey of 100 treated periodontal patients under maintenance care. McGuire MK 51
PROTEINS, MEMBRANE
IgG antibody response of localized juvenile periodontitis patients to the 29 kilodalton outer membrane protein of *Actinobacillus actinomycetemcomitans*. Wilson ME 211

R

RADIOGRAPHY, DENTAL
Computerized densitometric analysis of interproximal bone levels in a controlled clinical study into the treatment

of periodontal bone defects with ceramic hydroxyapatite implant material. Galgut PN, et al. 44
The relationship between probing attachment loss and computerized radiographic analysis in monitoring progression of periodontitis. Deas DE, et al. 135
RADIOGRAPHY, MICRO CONTACT
Longitudinal observation of cementum regeneration through multiple fluorescent labeling. Ogura N, et al. 284
RADIOGRAPHY, SUBTRACTION/instrumentation
In vivo determination of radiographic projection errors produced by a novel filmholder and an x-ray beam manipulator. Zappa U, et al. 674
RADIOGRAPHY, SUBTRACTION/methods
In vivo determination of radiographic projection errors produced by a novel filmholder and an x-ray beam manipulator. Zappa U, et al. 674
RENAL TRANSPLANTATION
The histological investigation of gingiva from patients with chronic renal failure, renal transplants, and with periodontitis: A light and electron microscopic study. Yamalik N, et al. 737
RESTRICTION ENDONUCLEASE TYPING
Microflora and bacterial DNA restriction enzyme analysis in young adults with peridontitis. van Steenbergen TJM, et al. 235
RISK FACTORS
Antibiotic prophylaxis for medical-risk patients. Pallasch TJ, et al. 227
Risk indicator for future clinical attachment loss in adult periodontitis. Patient variables. Grbic JT, et al. 322
ROOT RESORPTION
Early healing events at the dentin-connective tissue interface. Light and transmission electron microscopy observations. Wikesjö UME, et al. 5

S

SALIVA/microbiology
Recovery of *A. actinomycetemcomitans* from teeth, tongue, and saliva. Asikainen S, et al. 203
Reduction of salivary bacteria by pre-procedural rinses with chlorhexidine 0.12%. Veksler AE, et al. 649
SANGUINARIA/therapeutic use
Clinical and microbiological effects of a sanguinaria-containing mouthrinse and dentifrice with and without fluoride during 6 months of use. Kopczyk RA, et al. 617
SANGUINARIA/toxicity
Clinical and microbiological effects of a sanguinaria-containing mouthrinse and dentifrice with and without fluoride during 6 months of use. Kopczyk RA, et al. 617
SCALING
Dentinal tubule occlusion and root sensitivity. Kerns DG, et al. 421
In vivo scaling and root planing forces. Zappa U, et al. 335
Mechanical and chemical root preparation in vitro: Efficiency of plaque and calculus removal. Eschler B, et al. 755
Reduction of salivary bacteria by pre-procedural rinses with chlorhexidine 0.12%. Veksler AE, et al. 649
SCALING/methods
Influence of polishing procedures on sonic scaling root surface roughness. Leknes KN, et al. 659
Root substance removal by scaling and root planing. Zappa U, et al. 750
SEX RATIOS
No female preponderance in juvenile periodontitis after correction for ascertainment bias. Hart TC, et al. 745
The prevalence and sex ratio of juvenile periodontitis in a young racially mixed population. Melvin WL, et al. 330
SHORT-BOWEL SYNDROME
Alveolar bone loss in two children with short-bowel syndrome receiving total parenteral nutrition. Wright RB, et al. 272
SKIN
The electron microscopic immunolocalization of a copper-zinc superoxide dismutase in association with collagen fibers of periodontal soft tissue. Jacoby BH, et al. 413
SMOKING/adverse effects
Cigarette smoking and periodontal bone loss. Bergström J, et al 242
Erratum 809
STANNOUS FLUORIDE
Periodontal repair in dogs: Effect of root surface treatment with stannous fluoride or citric acid on root resorption. Wikesjö UME, et al 180
SUPEROXIDE DISMUTASE
The electron microscopic immunolocalization of a copper-zinc superoxide dismutase in association with collagen fibers of periodontal soft tissue. Jacoby BH, et al. 413
SURGICAL FLAPS
Clinical evaluation of guided tissue regeneration in the treatment of maxillary Class II molar furcation invasions. Metzler DG, et al. 353
A critical review of the biologic rationale for guided tissue regeneration. Minaba M 171
Periodontal repair in dogs: Effect of root surface treatment with stannous fluoride or citric acid on root resorption. Wikesjö UME, et al 180
Periodontal repair in dogs: Healing in experimentally created chronic periodontal defects. Wikesjö UME, et al. 258
Sounding depth measurements: A method for evalauating various surgical techniques. Ben-Yehouda A, et al. 565
Treatment of periodontal furcation defects. Mandibular Class III defects. Gantes BG, et al. 361

T

TEMPERATURE
Temperature gradients in periodontal pockets. Meyerov RH, et al. 95
TETRACYCLINE/therapeutic use
Enhanced repair and regeneration of periodontal lesions

in tetracycline-treated patients. Case reports. Moskow BS, et al. 341
Histologic evaluation of combining tetracycline and allogeneic freeze-dried bone on bone regeneration in experimental defects in baboons. Drury GI, et al. —
Longitudinal observation of cementum regeneration through multiple fluorescent labeling. Ogura N, et al. 284
Resolution of early lesions of juvenile periodontitis with tetracycline therapy alone: Long-term observation of 4 cases. Novak MJ, et al. 628
Topical application of doxycycline on periodontally involved root surfaces in vitro: Comparative analysis of substantivity on cementum and dentin. Demirel K, et al. 312

TITANIUM
Effects of the platelet-derived growth factor/insulin-like growth factor-1 combination on bone regeneration around titanium dental implants. Results of a pilot study in beagle dogs. Lynch SE, et al. 710
Titanium endosseous implant-soft tissue interface: A literature review. Donley TG, et al. 153

TOBACCO/adverse effects
Smoker's melanosis. A case report. Brown FH, et al. 524

TONGUE/microbiology
Recovery of *A. actinomycetemcomitans* from teeth, tongue, and saliva. Asikainen S, et al. 203

TOOTH RESORPTION
Periodontal repair in dogs: Effect of root surface treatment with stannous fluoride or citric acid on root resorption. Wikesjö UME, et al. 180

TOOTH ROOT
Dentinal tubule occlusion and root sensitivity. Kerns DG, et al. 421
Effect of zinc upon cell attachment and proliferation on periodontally-diseased root surfaces. Stookey KR, et al. 445
Mechanical and chemical root preparation in vitro: Efficiency of plaque and calculus removal. Eschler B, et al. 755
Periodontal repair in dogs: Effect of root surface treatment with stannous fluoride or citric acid on root resorption. Wikesjö UME, et al 180
Root substance removal by scaling and root planing. Zappa U, et al. 750

TORUS MANDIBULARIS
Bony exostosis as a sequela to free gingival grafting: Two case reports. Pack ARC, et al. 269
Erratum 809

TRACE ELEMENTS
Videodensitometrical study of the alveolar bone crest in periodontal disease. Landini G 528

TUMOR NECROSIS FACTOR
Tissue levels of bone resorptive cytokines in periodontal disease. Stashenko P, et al. 504

TWINS
Periodontal findings in adult twins. Michalowicz BS, et al. 293

U

ULTRASONICS
Influence of polishing procedures on sonic scaling root surface roughness. Leknes KN, et al. 659
Mechanical and chemical root preparation in vitro: Efficiency of plaque and calculus removal. Eschler B, et al. 755
The penetration of lavage solution into the periodontal pocket during ultrasonic instrumentation. Nosal G, et al. 554

UREMIA
The histological investigation of gingiva from patients with chronic renal failure, renal transplants, and with periodontitis: A light and electron microscopic study. Yamalik N, et al. 737

V

VANCOMYCIN/therapeutic use
Antibiotic prophylaxis for medical-risk patients. Pallasch TJ, et al. 227

W

WOUND HEALING
Clinical evaluation of the use of decalcified freeze-dried bone allograft with guided tissue regeneration in the treatment of molar furcation invasions. Anderegg CR, et al. 264
Doxycycline-tricalcium phosphate composite graft facilitates osseous healing in advanced periodontal furcation defects. Pepelassi EM, et al. 106
Early healing events at the dentin-connective tissue interface. Light and transmission electron microscopy observations. Wikesjö UME, et al. 5
The effect of chlorhexidine treatment of root surfaces on the attachment of human gingival fibroblasts in vitro. Alleyn CD, et al. 434
Effects of the platelet-derived growth factor/insulin-like growth factor-1 combination on bone regeneration around titanium dental implants. Results of a pilot study in beagle dogs. Lynch SE, et al. 710
The effects of short-term application of a combination of platelet-derived and insulin-like growth factors on periodontal wound healing. Lynch SE, et al. 458
Heparan sulfate and fibronectin improve the capacity of collagen barriers to prevent apical migration of the junctional epithelium. Pitaru S, et al. 598
Monoclonal antibodies to periodontal ligament cells. DuBois WT, et al. 190
Periodontal repair in dogs: Healing in experimentally created chronic periodontal defects. Wikesjö UME, et al. 258
The use of a synthetic skin substitute as a physical barrier to enhance healing in human periodontal furcation defects: A follow-up study. Flanary DB, et al. 684

ZINC IONS
Effect of zinc upon cell attachment and proliferation on periodontally-diseased root surfaces. Stookey KR, et al. 445
